

nete intranet™

Share.Learn.Collaborate. Intranets Change Organizations!

the **nete intranet™** is a group communication and collaboration product that increases employee productivity by simplifying and automating frequently performed tasks. the intranet also provides project management and tracking, as well as resource and knowledge sharing tools.

you can view a live demo of the intranet at <http://www.neteintranet.com/>
(login:guest & password: demo)

please contact us at intranet@netesolutions.com or call 703.435.0028 (USA) for more information and product private labeling or source code licensing

please visit internetcomponent.com in order to view our catalog of reusable internet components that can be plugged-in to enhance the neteintranet functionality. some of the components are instant messenger, chat, message boards, resume tracking, document collaboration and employee personal web site builders.
